

Operation Push

Kenwood sits on the shore of Lake Michigan and has a strong architectural presence.¹ Many official historical landmarks have been preserved here, such as the George Blossom House built by architect Frank Lloyd Wright. Late professional boxer, Muhammad Ali, was a resident of this neighborhood for a long time.

Who lives here?²

Race and Ethnicity

Population:

17,074

Population change:³

↓ 4%

Chicago: ↑ 6%

Age

Social Determinants of Health³

Social determinants of health are social, economic, and physical conditions in which people are born, live, and work that affect health and well-being. For example, where you live can limit access to healthy foods, this can in turn increase one's risk for obesity and other chronic conditions related to diet.

Economic Factors

Median household income

\$46,826

Chicago: \$53,006

Population living in poverty⁴

Unemployment

Education⁵

38%

of households spend **30%** or more of their annual income on housing costs

1 in 5

children are living in poverty⁴

17% of households are receiving food stamps

35% of households are at risk for food insecurity⁶

Physical Factors

84%

of adults report that they feel safe in their neighborhood "most or all of the time"⁷

Violent crime incidents⁷ Per 100,000 Population

Access to Care

Access to quality health care services is important for preventing and managing diseases and achieving health equity. High cost of care, inadequate insurance coverage, and lack of availability of quality services generally lead to barriers in clinical care.

61%

of pregnant women received early and adequate prenatal care⁷

56%

report receiving colorectal cancer screening⁸

Health Behaviors⁹

Health behaviors are individual actions we take to prevent illnesses or maintain good health such as exercising and eating a balanced diet. Health behavior is greatly influenced by the social and economic conditions in which people live. For example, it is difficult to walk in the neighborhood to get exercise when you do not feel safe.

26%

report not participating in any physical activity or exercise in the past month

18%

report drinking soda or sweetened drinks everyday

14%

report being a smoker

38% report eating five or more servings of fruits and vegetables daily

Health Outcomes¹⁰

Health outcomes are the measures that define the health and wellbeing of the community. Health outcomes are a result of social determinants of health, access to clinical care, and health behaviors.

Top Causes of Death

1. Cancer
2. Heart Disease
3. Injury
4. Stroke
5. Diabetes-related

Infant Mortality

Deaths per 1,000 live births

Life Expectancy at Birth

79 years

Chicago: 77 years
The Loop: 82 years

Disease Burden Among Adults⁸

28%
have high blood pressure

32%
are obese

9%
are diabetic
