# South Chicago

Commercial Avenue

**South Chicago** is where the Blues Brothers Movie takes place. It was also known for its steel mills, which were a very crucial part of its identity during the latter part of the 20th century.<sup>1</sup> The main tourist attraction is the 95th Street bridge and the Calumet Fisheries seafood stand.<sup>1</sup>

# Who lives here?2

**Population:** 

27,601

Population change:<sup>3</sup>

Chicago: ↑6%

# **Social Determinants of Health<sup>2</sup>**

Social determinants of health are social, economic, and physical conditions in which people are born, live, and work that affect health and well-being. For example, where you live can limit access to healthy foods, this can in turn increase one's risk for obesity and other chronic conditions related to diet.

### **Economic Factors**

### Median household income

\$27,692

Chicago: \$53,006

### Population living in poverty<sup>4</sup>

## **Access to Care**

Access to quality health care services is important for preventing and managing diseases and achieving health equity. High cost of care, inadequate insurance coverage, and lack of availability of quality services generally lead to barriers in clinical care.

of pregnant women received early and adequate prenatal care<sup>9</sup>

report receiving colorectal cancer screening<sup>8</sup>

# **Health Behaviors**<sup>8</sup>

Health behaviors are individual actions we take to prevent illnesses or maintain good health such as exercising and eating a balanced diet. Health behavior is greatly influenced by the social and economic conditions in which people live. For example, it is difficult to walk in the neighborhood to get exercise when you do not feel safe.

29%

report not participating in any physical activity or exercise in the past month

47%

report drinking soda or sweetened drinks everyday

**36**%

report being a smoker

20% report eating five or more servings of fruits and vegetables daily

# Health Outcomes<sup>10</sup>

Health outcomes are the measures that define the health and wellbeing of the community. Health outcomes are a result of social determinants of health, access to clinical care, and health behaviors.
