

63rd Street Beach House

Woodlawn sits very close to Lake Michigan. Its main attractions are the very popular landmarked 63rd Street Bathing Pavilion that serves as the signature indoor portion of the beach and Jackson Park.¹ This park was designed by the same person who designed New York's Central Park, Frederick Law Olmsted.² The future Obama Presidential Center will also be located in this community.

Social Determinants of Health³

Social determinants of health are social, economic, and physical conditions in which people are born, live, and work that affect health and well-being. For example, where you live can limit access to healthy foods, this can in turn increase one's risk for obesity and other chronic conditions related to diet.

Economic Factors

Median household income

\$25,364

Chicago: **\$53,006**

Population living in poverty⁵

Unemployment

Education⁶

47%

of households spend **30%** or more of their annual income on housing costs

1 in 2

children are living in poverty⁵

41% of households are receiving food stamps

54% of households are at risk for food insecurity

Physical Factors

66%

of adults report that they feel safe in their neighborhood "most or all of the time"⁸

Violent crime incidents⁸
Per 100,000 Population

Access to Care

Access to quality health care services is important for preventing and managing diseases and achieving health equity. High cost of care, inadequate insurance coverage, and lack of availability of quality services generally lead to barriers in clinical care.

53%

of pregnant women received early and adequate prenatal care¹⁰

69%

report receiving colorectal cancer screening⁹

Health Behaviors⁹

Health behaviors are individual actions we take to prevent illnesses or maintain good health such as exercising and eating a balanced diet. Health behavior is greatly influenced by the social and economic conditions in which people live. For example, it is difficult to walk in the neighborhood to get exercise when you do not feel safe.

28%

report not participating in any physical activity or exercise in the past month

30%

report drinking soda or sweetened drinks everyday

21%

report being a smoker

27% report eating five or more servings of fruits and vegetables daily

Health Outcomes¹¹

Health outcomes are the measures that define the health and wellbeing of the community. Health outcomes are a result of social determinants of health, access to clinical care, and health behaviors.

Top Causes of Death

1. Cancer
2. Heart Disease
3. Injury
4. Diabetes-related
5. Homicides

Infant Mortality
