

**Illinois law
says that
your pharmacist
must talk to you
about any new
or changed
prescriptions.**

Education makes sure that you know about the safe and effective use of your medications. This lowers the chances of any harmful problems.

If you get prescriptions by mail, you can contact the pharmacist at the phone number on your order.

If the pharmacist does not talk with you about any new or changed prescriptions, contact the state regulatory authority.

**Department of Financial and Professional Regulation
Division of Professional Regulation Complaint Intake Unit**
100 West Randolph Street, Suite 9-300 Chicago, IL 60601
Phone: (312) 814-6910 www.idfpr.com

Talk to your pharmacist. It may save your life.
