DONATION GUIDELINES

The Child Life Program at Comer Children’s is an essential component to helping patients and their families cope with a hospital stay. Our specialists know children with any medical condition are in need of more than just medical care to heal and recover—they need development-focused support, interaction with their peers, and time to play. These critical programmatic elements are made possible because of the generous contributions and gifts from individuals, foundations, and groups. In-kind donations enable our team to carry out their important work. We are deeply grateful for your support!

For any donation questions please contact Amy Carter at amy.carter@uchospitals.edu or 773-702-0407.
